

Best Quality, Price, & Service

"Republic Metals - The Leader in Lead Anode Manufacturing Since 1924!"

Republic Metals offers the highest-quality lead anodes with first-class customer service – all at competitive prices. Our use of special alloys and purity-controlled extrusion methods ensure our anodes outperform conventionally cast anodes.

[Anodes](#)

- Full range of shapes and sizes
- Every order fabricated to customer specifications
- Innovative design and production standards

[Related products](#)

- Lead linings
- Lead coils
- Conforming lead anodes
- Solder anodes
- "Grid" material in many alloys and fabricated shapes

Our refining process also offers the opportunity to convert your used or scrap anodes into new anodes, affording considerable savings and guaranteed quality control.
